## Thrilling Lifetime Experience Gorilla Tracking Safari

**A Safari Beyond Any Adventure  
That You Can EVER Imagine**

There are roughly 700 **mountain gorillas** remaining on Earth. These gorillas live on the green, volcanic slopes of Rwanda, Uganda, & the Democratic Republic of Congo. Mountain gorillas have longer hair and shorter arms than their lowland cousins. They also tend to be a bit larger than other gorillas.

See the Dian Fossey "Gorillas in the Mist" Mountain Gorillas. Gorillas share 98 percent of our human DNA.
